Subject: AA1000542 Honeysuckle Health and NIB

I am writing to implore you NOT to accept the application for Honeysuckle Health to buy into the management of Australian health care. I DO NOT accept that my freedom of choice will be stripped from me or from my children. This will have a devastating effect on our national health and wellness for generations to come. Please I beg you to dismiss their application, as I truly believe it represents all that is evil in this world. An atrocity on our freedom as humans in this so called liberated world. We would, as Australians, be taking a MASSIVE step backwards in our potential growth and capability to be world leaders.

I hope that the ACCC has the intelligence and empathy to understand this is NOT Australian values, we as Australians do NOT want this. I implore you to dismiss this application.

Regards,

Timoli Nixon
Director & Co Founder
